Hammour House Children's Art Archive

A beautiful archive

Through a series of workshops created by thejamjar in collaboration with Expo 2020 Dubai, students from schools in the UAE created artworks using an ancestral Indonesian technique called Batik, which produces far less waste into the ocean.

Students were provided with anatomically correct outlines of marine life, originally created by Abjad Design, which they brought to life using chemical-free acrylic paint while learning about environmentally conscious art.

The making of The Tapestry

Dubai-based muralist Steve Chambers was commissioned to respond to the children's artworks, which resulted in an artwork titled 'The Tapestry', comprising three panels each 4 meters by 5.2 meters in size.

The panels were layered with the original fish artworks that were cut out and stitched onto them, creating a three dimensional effect that brings the ocean to Expo 2020 Dubai.

The Tapestry is one of the three public installations shown at Hammour House in Expo 2020 Dubai.

About Hammour House

Deep dive into a one-of-a-kind community art project bringing together artists, scientists, schoolchildren and fishermen.

Hammour House invites residents, visitors and communities around the world to connect with each other and the marine ecosystem.

Curated by Ahmed Al Enezi, Hammour House showcases a selection of installations as part of a rich program which includes two publications inspired by the world of science, local knowledge, the arts and the community.

It is Expo 2020 Dubai's artistic response to "Connecting Minds, Creating the Future" and Sustainability.

These inspirational components add depth to the project and invite visitors to examine and consider the narratives of discovery and wisdom of our elders, the vast unknown and the world underwater which remains mostly undiscovered.

**Hammour House
welcomes you
to discover the
marvellous
underwater world!**

The students of the following UAE schools participated in the artworks used by artist Steve Chambers to create 'The Tapestry, 2021' exhibited at the Hammour House, Expo 2020 Dubai
